

EDUCATION

VIT University Bachelors of Technology in Computer Science Engineering (Cybersecurity Specialization) CGPA: 8.33/10	India June 2021 - June 2025
---	---

WORK EXPERIENCE

Freelance, Swnk Project Manager Led a team of 5 developers and designers to deliver secure web development and cybersecurity services, achieving a 70% client retention rate through effective Agile project management and client communication. Managed secure hosting services for 3+ clients, reducing vulnerabilities by 60% by overseeing penetration testing and implementing Scrum methodologies to ensure timely delivery. Initiated SSP, a social media management and marketing automation project, by defining project scope, creating detailed documentation, and coordinating cross-functional teams using Agile practices. Link: swnk.in	June 2024 – Present Remote
InLighntech Global Pvt. Ltd. Cybersecurity Intern Engaged in a structured educational internship, attending live sessions and studying recorded videos to build foundational knowledge in cybersecurity as part of an IT-focused learning program. Conducted research and contributed to project work, focusing on vulnerability analysis and threat modeling under mentor guidance to support practical cybersecurity initiatives. Collaborated with peers on simulated cybersecurity exercises, applying Agile methodologies and using Jira for task tracking to meet project milestones and deliverables.	June 2025 – Present Remote

PROJECTS

Offensive Scanner: Security Testing Tool Project Manager Managed development of a Java-based security scanner, overseeing a team to detect 100+ vulnerabilities across 10+ networks using Agile methodologies and Maven for build automation. Coordinated ethical hacking efforts, enabling identification of 50+ critical vulnerabilities per scan, improving assessments by 40% through sprint planning and stakeholder feedback. Optimized project delivery by designing a modular architecture, reducing scan time by 35% via effective resource allocation and YAML-based configurations. Tech Stack: Java, Maven, YAML, Multithreading, CLI GitHub: github.com/5h4d0wn1k/offensive-scanner	March 2025 – Present
Open-Source SIEM Platform Project Manager Led development of a scalable SIEM platform, improving threat detection by 40% by managing Python-based log correlation and machine learning integration using Agile practices. Reduced false positives by 25% by overseeing algorithm optimization and coordinating real-time log analysis tasks across sprints. Managed Next.js frontend development with dynamic threat visualization, enhancing user interaction by 50% through iterative feedback and sprint reviews. Tech Stack: Python, Next.js, Machine Learning, Threat Detection GitHub: github.com/5h4d0wn1k/enterprise-siem-platform	October 2024 – January 2025

TECHNICAL AND PROJECT MANAGEMENT SKILLS

- Project Management: Agile Methodologies (Scrum, Kanban), Sprint Planning, Stakeholder Management, Risk Assessment, Project Scheduling, Resource Allocation, Documentation
- Cybersecurity: Penetration Testing, Vulnerability Assessment, Ethical Hacking, SIEM, Threat Modeling, OWASP
- Programming: Python, Java, C++, SQL
- Tools & Platforms: Jira, Confluence, Trello, Linux, Burp Suite, Wazuh, Wireshark, Metasploit, Nmap, Nessus, Kali Linux
- Networking: TCP/IP, Firewalls, IDS/IPS, Packet Analysis

CERTIFICATIONS

- Certified Ethical Hacker (CEH) – EC-Council
- Certified Network Security Practitioner (CNSP) – The SecOps Group
- HPC Data Structures and Algorithms (C++) – IAMneo

ACHIEVEMENTS & ACTIVITIES

- Achieved 36th rank in CyVIT CTF at VIT Bhopal, competed in DSA Dash, Smart India Hackathon, and Kavach (March 2023).
- Secured top 12% ranking among 100,000+ TryHackMe users by solving 200+ cybersecurity challenges, actively contributed on LeetCode and Hack The Box, and served as core member of Health O Tech Club at VIT Bhopal (July 2021).
